3. **Unique characteristics that limit availability to only one source, with the reason no other supplies or services can be used:** This robot is just one component of an existing pharmacy automation system currently deployed & it must be 100% compatible with this system to avoid Patient medication errors. The ScriptPro replacement robot is compatible and will be accessible to our other ScriptPro products, Processing points and other devices that connect to existing ScriptPro servers which have full connectivity of the appropriate patient data needed in Vista Orders.
4. **Description of market research conducted and results or statement why it was not conducted:** VA Mandatory and non-mandatory sources were searched. Market research indicates that ScriptPro equipment is proprietary to ScriptPro. ScriptPro does have one authorized distributor – Veterans Healthcare Supply Solutions (VHSS). ScriptPro provided a quote from their GSA FSS Contract #36F79719D0135, that has all the required items on schedule. VHSS does have a FSS Contract, but

the required items are not on schedule per the T&Cs schedule. FPDS indicates multiple awards made to ScriptPro and only a few made to VHSS. The VA Rule of Two was not met and it is recommended that this be solicited as unrestricted. Price reasonableness is documented on S19 Open Market (FAR 13) Award Documentation.

5. **Contracting Officer's Certification:** Purchase is approved in accordance with FAR 13.106-1(b). I certify that the foregoing justification is accurate and complete to the best of my knowledge and belief.
